

Free to Move Again,  
Free to Live Again.

# Ermi Now More Than Ever

*The Environment has Changed! Coronavirus / COVID-19 has become a very real concern and Ermi is ready and committed to help.*

*Since Patients and Healthcare professionals are making the decision to practice social distancing, Ermi's in-home programs are the ideal solution to help your patients maintain and improve their Range of Motion in the safety of their homes.*

*Your local Ermi Sales Professional is here to help, one simple phone call is all it takes to start the program to help your patients.*

Now that the environment has changed, you need options so care to your patients is not interrupted.

COVID-19 has made your job more complex, **Social Distancing and Self Quarantine** create real challenges for your patients care and swift recovery.

Ermi is committed to helping your patients continue to recover their range of motion safely and effectively.

Ermi puts your patients recovery in their hands in the comfort and safety of their home.

Ermi's in-home programs have helped over 100,000 patients regain motion so that they can get back to work faster, back to life faster.

**For more information contact your Ermi Professional  
or email [info@ermi-motion.com](mailto:info@ermi-motion.com)**

## Program Overview:

- Ermi will work with Clinicians to identify the patients that could benefit from the program while limiting their exposure to COVID-19.
- Ermi will screen the patient environment and determine the safest delivery method. This can be either in-home or remote setup.
- Ermi will continue to monitor patient progress and provide routine updates to the clinicians on their progress.
- Ermi is an approved contractor for the Veterans Administration, is in-network with all major Worker's Compensation DME providers and offers robust self-pay options for uninsured and under-insured patients.
