

# Introducing ThermaZone® by Ermi

## The first step to full recovery

### Ermi Programs

Ermi has complemented its powerful motion restoring Programs by adding a premium cold therapy solution:

- Cold Therapy (CT) is effective in reducing swelling that can impede recovery
- Effective application of CT and patient compliance at home is cumbersome without the right device, protocol and support
- ThermaZone by Ermi provides both the right device and Ermi's proven patient monitoring to ensure success.

### ThermaZone by Ermi:

- ThermaZone is a powerful and compact device that uses thermoelectric technology to provide cooling and heating therapy where and when you need it, without the use of ice.
- ThermaZone satisfies a clear unmet clinical need - targeted localized, non-opioid therapy with consistent temperature management.

### The Ermi Advantage:

- Engaging your trusted Ermi professional, reduces the burden of coordinating care across multiple vendors
- As a Joint Commission Registered company you can be assured your patients are receiving care from highly trained professionals following strict guidelines
- Ermi's ongoing patient monitoring will help you identify those patients struggling with their recovery.

### ThermaZone Unit

- Compact, easy to setup and use
- Cold and heat therapy in one device
- Uses only 2 oz of distilled water
- No ice required for operation
- 5 preset protocols
  - 10, 20, or 30 minutes
  - 30 minutes on / 30 minute pause
  - 30 minutes on / 60 minute pause

### Motion Advantage™ technology

- Leverages precise fluid motion to deliver uniform temperature distribution across the surface of the pad for maximum coverage

### ROM Knee Brace

ROM Knee Brace with an embedded water pathway that provides the controlled temperature of both heating and cooling therapy. Patients benefit from both thermal therapy at controlled temperature and a limited range of motion.

### Shoulder Pad

- Standard pad fits up to a 44" chest
- Large pad fits up to a 54" chest

### Knee / Elbow Pad

- Supports both knee and elbow
- Adjustable to fit all patients

### Ankle Pad

- Perfect for ankle injuries
- Adjustable to fit all patients
